

# LOGO

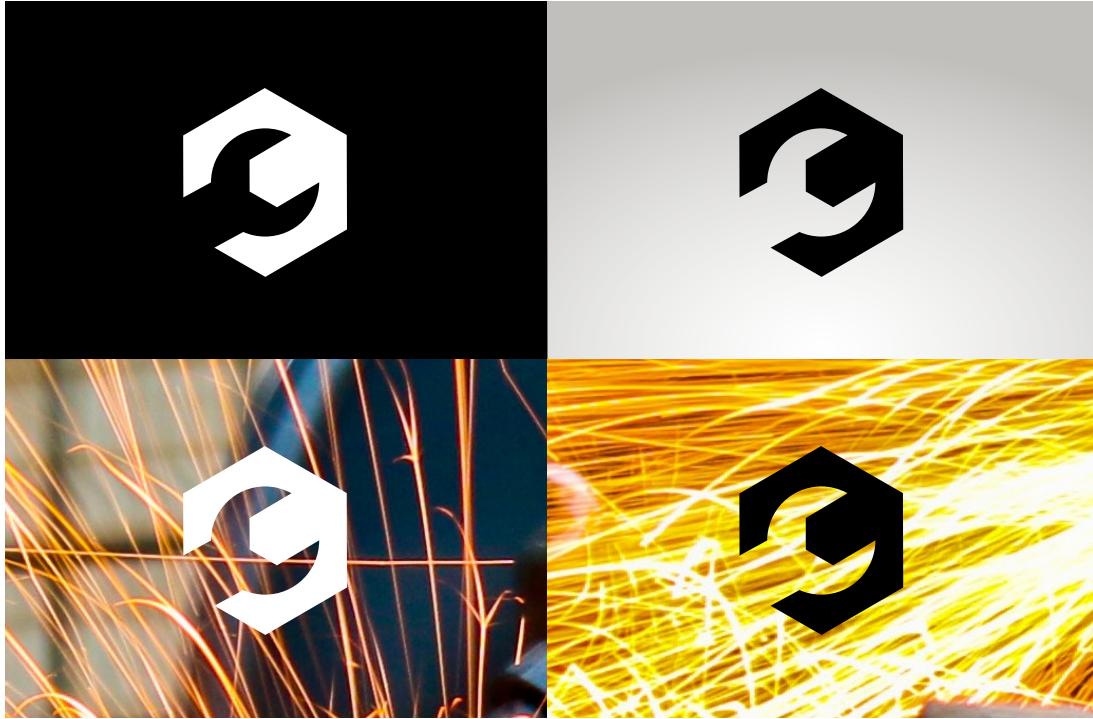

No strong affiliation with either Fedora nor Silverblue (shared with CoreOS)

The basis of the Toolbox logo is the hexagon wrench button. It can be used standalone with no type.

The purple button can only be used on white and very light grey backgrounds. For high frequency/detail or dark backgournds, use black/white silhouette.

# WHITESPACE

Whitespace is not wasted space. Provide emphasis by giving the logotype some space.

# PALETTE

DARK PURPLE	MEDIUM DARK PURPLE	MEDIUM PURPLE	MEDIUM LIGHT PURPLE	LIGHT PURPLE
#613583	#813d9c	#a347ba	#c061cb	#dc8add

Multiple shades of lightness are allowed as accent color for backdrops for the monochrome variant of the logo.

# TYPE

The font used in the logotype is Overpass Bold. See <http://overpassfont.org/>
